2. Our Guarantee Regarding Descriptions

American Glass Gallery has made every attempt to describe correctly the property being sold. Descriptions are guaranteed to be accurate as regards authenticity, age, condition, and measurements to within one-fourth inch, as represented in this catalog. Items in this catalog are not shown to scale. In describing damage, exterior wear or manufacturer's flaws that in our opinion, do not significantly detract visually or monetarily from the value of the item are not listed and will not be considered for refund. The Auctioneers reserve the right to make verbal corrections and provide additional information at any time during the sale.

3. Preview

Items may be viewed by appointment from November 15, 2017 through November 27, 2017.

4. Bidding Procedure

You may submit your bids by mail, phone, FAX, email or through our on-line auction site. If bidding by mail or FAX, please fill out the absentee form and return it to us. Your bid, either written or oral, grants American Glass Gallery the authority to protect you up to the amount of your stated bid. Your bid will not be removed once executed.

Bidding Times: You can submit your bids anytime after receiving your catalog. Bids may be made by phone, daily, until closing day, November 28, 2017, from 9 A.M. - 6 P.M. Eastern Time. Incoming phone bids will be accepted on the closing day (November 28, 2017) until 11 P.M. Eastern Time. Phone calls and Fax bids after this time will not be honored. No exceptions. You may also place your bids through our on-line auction service 24-hours a day once the site has opened for bidding, on or about November 15, 2017, continuing until 11:00 P.M. Eastern Time, November 28, 2017.

Please do not wait until the last day or two of the sale to place your bids!

Because many collectors wait until the final few days of the sale to place their bids, we anticipate the telephone and internet bidding to be very busy during that period, so please plan accordingly. In the event of a tie bid, the earliest received bid on the lot will take precedent. We would welcome your bids by phone so that we can answer any questions and assist you in your bidding.

You may also telephone us at any time during the auction, prior to the closing of the sale, to check the status of your bids, to find the current bidding level, to open a bid, or to raise a bid on an auction lot.

Bidding Increments are as follows:

Up to \$250.00.....	increments of \$10.00
\$250.00 - \$500.00	increments of \$25.00
\$500.00 - \$1,000.00	increments of \$50.00
\$1,000.00 - \$2,500.00	increments of \$100.00
\$2,500.00 - \$5,000.00	increments of \$250.00
\$5,000.00 - \$10,000.00	increments of \$500.00
\$10,000 & Up.....	increments of \$1,000.00

Bids submitted between the above increments, whether by mail, FAX, email or on-line via the internet, will automatically be lowered to the closest lower increment.

This is a minimum bid auction. Bids below the printed minimum will not be accepted.

An example of how our absentee bidding system works: You bid \$600.00 on a lot which is the highest bid received to date. The second highest bid is \$450.00. The current high bid level would be yours at \$475.00, one bid increment higher than the other collector's bid. Any additional bids submitted by others below \$600.00 will automatically be topped on your behalf by a representative of American Glass Gallery, up to your stipulated high bid amount. If no further bids on this lot are received beyond the \$450.00, and the under bidder has not requested a "Call Back", then you would have won the lot at \$475.00, not the \$600.00 that you were prepared to pay.

American Glass Gallery will at NO TIME disclose bids pledged by others; only the current "High Bid" level of a lot will be stated upon request. The highest bidder as determined by American Glass Gallery shall be the purchaser. It is the sole right of the auctioneer to settle any dispute between bidders and to regulate the bidding procedure. The auctioneer reserves the right to refuse any bid he believes not to have been made in good faith.

5. "Call Back" Process

If requested, the three top bidders of an item at the time of closing will be given a "Call Back" over the next number of days in order to resolve the final sale of an item. You can request this service by "checking" the appropriate box on your absentee bid form or verbal agreement by phone. It is the responsibility of the bidder to insure he has qualified for this service.

Please note: No "Call Backs" will be executed for bids under \$400.00. In the event of tie bids, the earliest bid received will be the winning bid.

An example of how the "Call Back" process works: As an example, you have bid \$600.00 on a particular lot. Another bidder has submitted a bid of \$900.00 on the same lot. Assuming that as of the auction closing date you are among the top three bidders on this lot and you have requested a "Call Back", you would receive a call informing you that you have been "Out Bid" and the current "High Bid" is now at \$650.00. If you choose to continue bidding on this lot, you may now do so. Assuming that you now increase your bid to \$700.00, we would accept your bid but also inform you that we have a higher bid on this lot and must bid \$750.00. At this time, an auction between you and American Glass Gallery, representing the collector who submitted the bid of \$900.00, takes place. This bidding would continue until you drop out, or top the other bidders high bid of \$900.00. If the other bidder has not requested a "Call Back" service, you would be awarded the lot. If however, the other bidder also requested a Call Back, we must now call them. If they elect to increase their bid over your high bid, we would in turn call you back. This back and fourth process would continue until one of the bidders declines to go any farther.

If you have requested a "Call Back", the auctioneers will need to contact you on the days immediately following the auction closing between the hours of 8 A.M. and 9 P.M. Eastern Time. Please supply us with all appropriate contact phone numbers including, home, mobile and work numbers. Bidders must provide the appropriate telephone numbers where they can be contacted. If you will be traveling or otherwise unavailable, bidders with "Call Back" privileges will have the responsibility to contact American Glass Gallery twice daily during the Call Back period.

Please note, every effort will be made to contact you during the "Call Back" period. However, the bidder will forfeit their rights to a "Call Back" if the auctioneers are unable to reach them. American Glass Gallery reserves the right to discontinue Call Backs on any item in the sale (2) two days after the closing date of the sale. At that time, the current "High Bidder" may be awarded the item even if Call Backs are still outstanding.

Refunds requested on the grounds of authenticity must be made within 15 days of the date of the auction, and such refund requests must be accompanied by at least one supporting statement in writing from an authority recognized by the Auctioneers. It is the Auctioneers sincere intention to consider any reasonable request for a refund. *Absolutely no returns for any reason after 30 days following the closing of the sale.*

Lot 169: Russ' Stomach Bitters — A Rare Find Indeed!

This rare and beautiful “lady’s leg” type bitters bottle was discovered just a couple of months ago in an old barn north of Portland, along the coast of Main. The barn, and attached house, were purchased recently and were undergoing renovations at the time. Workers were putting new roof boards on the barn when the bottle was found hiding under an eave. The homeowners nearly gave the bottle to the roofer!
